

LUONG THE TAI

WEB DEVELOPER

 0865370761
 taithedev2003@gmail.com
 Quang Trung, Go Vap

OBJECTIVE

- With one year of experience developing websites using WordPress, I am seeking an opportunity at a technology company to return to a hands-on coding environment, particularly in Web Development (both Front-end and Back-end). I am open to **Intern** or **Fresher** positions, where I can learn from real-world projects, improve my technical skills, and gain practical development experience.
- Currently, I am studying Artificial Intelligence at UIT, and I aim to explore new technologies and gradually apply AI knowledge to real-world products. My long-term goal is to build a career as an **AI Engineer** after completing my academic program.
